## ARPRO<sup>®</sup> Product Listing Porous Expanded Polypropylene (PEPP) Standard and Specialty Grades

## **BULK DENSITY SPECIFICATION**

|              | Density, grams/liter (g/l) |         |                |   |              | Density, grams/liter (g/l) |         |                |
|--------------|----------------------------|---------|----------------|---|--------------|----------------------------|---------|----------------|
| Product Type | Lower<br>Limit             | Nominal | Upper<br>Limit |   | Product Type | Lower<br>Limit             | Nominal | Upper<br>Limit |
|              |                            |         |                | - |              |                            |         |                |
| 9517         | 21.0                       | 23.0    | 25.0           |   | 9428         | 30.0                       | 33.0    | 36.0           |
| 9518         | 22.0                       | 24.0    | 26.0           |   |              |                            | •       |                |
| 9519         | 23.5                       | 26.1    | 28.7           |   |              |                            |         |                |
| 9528         | 30.0                       | 33.0    | 36.0           |   |              |                            |         |                |

White

## **Charcoal Fire Retardant**

|              | Density, grams/liter (g/l) |         |                |  |  |
|--------------|----------------------------|---------|----------------|--|--|
| Product Type | Lower<br>Limit             | Nominal | Upper<br>Limit |  |  |
|              |                            |         |                |  |  |
| 1328         | 32.0                       | 34.0    | 36.0           |  |  |

## White Fire Retardant

|              | Density, grams/liter (g/l) |         |                |  |  |
|--------------|----------------------------|---------|----------------|--|--|
| Product Type | Lower<br>Limit             | Nominal | Upper<br>Limit |  |  |
|              |                            |         |                |  |  |
| 1228         | 32.0                       | 34.0    | 36.0           |  |  |

= Special Order Product, Limited Availability

ARPRO® is a registered trademark of JSP International Group, Ltd. PUBLICATION: JSP-ARPRO-PEPP-Standard&SpecialtyGrade-2018

The information contained herein is based upon the results of limited laboratory tests on test samples of material molded from expanded polyolefin resin manufactured by JSP. There can be no assurance that the similar results will be achieved in simulated tests or actual use of commercial product moleded by customers of JSP. Product performance may vary substantially depending upon the particular application or processing involved. The listed properties are listisative only and not the product specifications. All suggestions and recommendations are made without varrantly since the conditions of users are advised that there may be a need to conduct independent tests and experiments in order for them to determine the extent to which they may choose to rely upon such information in their business operations. JSP disclaims any liability in connection with the use of the information and does not varrant against infingement by reasons of the use of its products in orbination with other material or in any process.
