

ARPRO Declaration of Conformity with PPWR

1. **Product name:**
ARPRO
2. **Name and address of the manufacturers:**

JSP International, s.r.o.	JSP International, s.a.r.l.
Průmyslový park 158/11	Route de Francières
350 02 Cheb	60190 Estrées-Saint-Denis
Czech Republic	France
3. **This declaration of conformity is issued under the sole responsibility of the manufacturer**
4. **Statement regarding the Packaging and Packaging Waste Regulation (EU 2025/40), article 5 (4) "Requirements for substances in packaging":**

- **Heavy metals**

During the manufacture of ARPRO, JSP does not use nor incorporate any heavy metals substances. Analyses performed on ARPRO have shown levels of regulated heavy metals each below detection limits (10ppm), in compliance with the PPWR requirement of a total sum of heavy metals below 100ppm.

However, due to the inherent variability associated with recycled raw materials, JSP cannot guarantee that future production batches will always exhibit identical analytical results. Nevertheless, based on the information currently available, JSP has no reason to believe that compliance with the referenced requirements would change.

- **PFAS (food-contact packaging)**

During the manufacture of ARPRO, JSP does not use nor incorporate any PFAS substances. ARPRO contains post-consumer recycled (PCR) materials. Due to the nature of recycled materials, JSP cannot provide an absolute guarantee regarding the absence of unintended trace contaminants.

It should be noted that the PPWR provisions relating to PFAS apply only to food-contact packaging applications. Due to current regulatory limitations associated with the use of PCR materials, ARPRO Recycled grades are not suitable for food-contact applications and should not be used for such purposes.

This declaration is provided in good faith based on the information available at the date of issue and does not constitute a warranty. The manufacturer placing the final product on the market remains solely responsible for verifying the suitability of the material for its intended application and for ensuring compliance with all applicable regulatory requirements.

Signed for and on behalf of the manufacturer:

A handwritten signature in blue ink, appearing to read 'Ivana Vejražková', is written over a faint, light blue circular stamp.

Ivana Vejražková
